

FLORA AND FAUNA

GENERAL INFORMATION

We invite applications in any media format, existing or tailored, on the broad theme of biodiversity. This exhibition aims to display how creating variety within an ecosystem strengthens its foundations. We are looking for connections to this topic of 'Flora and Fauna' that demonstrates the earth's interconnected environment and our concerns for its endangerment. The curators of our wonderful exhibition have found their inspiration from reinterpreting the diversity of characters found in the classical Dutch painting 'The Garden of Earthly Delights' by Hieronymus Bosch into an array of contemporary art mediums. We look forward to your submissions!
